* Bogor and Jakarta Golf Courses Information*

Sentul Highland Golf Club

Sentul highlands Golf Club was designed by world renowned South African golf professional Gary "The Black Knight" Player who has instrumentally transformed the majestic mountainous region of Bogor into a world class 18 hole golf course. Officially opened on 17th May 1997, the golf course and all its facilities reside in an area of 85.4 hectares in the beautiful Sentul City.

Like how all great player around the world designed courses, Gary Player had fully optimized the rolling terrain along with landscapes and natural features and transformed it into a series of holes that will challenge and satisfy golfers. Number twelve is a seemingly easy short hole of just 140 meters. However, artfully placed boulders in the fairway bunkers surrounded the green to increase the difficulty while enhancing the scenic beauty. It will test your ability to land a well-placed shot. The greens at Sentul Highlands Golf Club are built to exact U.S.G.A, specifications, providing superior putting surfaces.

Rest assured that there is no need to be intimidated; there are five tee boxes for each hole such that you can choose the course matching your skill level. You are always assured of a warm VIP welcome at Sentul Highlands Golf Club.

The Sentul Highlands Golf Club is meticulously maintained making the club a fine place to host local business connections. We can assure that you will be pleased by the beauty of the West Java countryside and uniqueness of the course. In addition, all these pleasures are just 45 minute drive away from the buzzing central Jakarta.
