## \* Laos Golf Courses Information\*

### Dansavanh Golf & Country Club

Dansavanh Golf & Country Club is well known for its unique world class standard golf resort in Laos. It is undoubtedly one of a kind location with views of Nam Ngum Lake —“the Lake Geneva of Asia”—and highland forests of palms and pines at heights going from about one thousand to two thousand feet above sea level.

This course has a number of stimulating doglegs. 8 out of 18 holes is a dogleg. Five of the dogleg angle to the right while three angle around to the left. Hence, a well-placed and strategized shot off a tee is truly important. If you are unable to cut the corner with your tee shot or hit it long enough to curve the ball round the bend, a good strategy for straight hitters is to tee your ball at the same side of the tee box as the dogleg goes, e.g., dogleg left, tee it left.

On top of the magnificent views of one of Asia's largest lakes as you play in the championship course, you will also experience getting pass Dansavanh's water features throughout the course. Water hazards come into play for at least 13 of the holes at the fine resort.

The layout tends to be hilly in places and if you are not used to walking on terrains like this, you will find that this course will tire you out if you chose to hoof it. However, it is undoubtedly a championship track in a beautiful site; you will be tempted to come back for more.

Designer : NA  
Holes / Par / Yardage : 18 Holes/ Par 72/ 6900 Yards  
Established : 2002  
Green / Caddy / Buggy Fees: NA  
Distance : 45-60km from Vientiane City Centre
