* Myanmar Golf Courses Information*

Myanmar Golf Club

The Myanmar Golf Club is possibly the nearest golf club to the airport, approximately 30 minutes to the city center. The Par-72 course is filled with mature trees which spread over the hills punctured by numerous water holes. This gives the golf course a beautiful landscape and smoothing atmosphere, making it highly suitable for golfers who seek to relax and get-away from the city lifestyle.

The Myanmar Golf Club is being constructed by local architects before independence of the country. For those who are keen on testing out their long drive, the longest hole is the Par-5 Index-4 508-yard Hole-13. The Golf course is well known for its steep contours and terrain, giving all golfers a challenging and rewarding overseas golfing experience.
